1. Game Overview

Game Title	MASTI KHOR (मस्ती खोर)
------------	------------------------

Genre	Top-Down 2D Comedy Adventure
Platform	PC, Web Browser
Engine	Godot 4.7
Target Audience	All Ages (Family-Friendly)
Players	Single Player
Art Style	Pixel Art / 2D Cartoon
Development Time	6-8 Months (Estimated)

1.1 Game Concept

MASTI KHOR is a top-down 2D comedy-adventure game set in a vibrant Indian mohalla (neighborhood). Players control **Kabir**, a 12-year-old mischievous boy, who must navigate through various levels while being chased by unique enemies — each with their own AI behavior and personality.

1.2 Core Pillars

- **Comedy:** Humor-driven gameplay with funny situations and dialogue
- **Chase:** Unique chase mechanics for each enemy type
- **Stealth:** Hide and seek mechanics with environmental interaction
- **Puzzles:** Brain-teasing puzzles to progress
- **Indian Culture:** Authentic Indian mohalla setting and references

1.3 Unique Selling Points

- 5 distinct chase-based levels with unique enemy AI
- Indian cultural references and humor
- Dynamic NPC interactions and dialogue system
- Environmental puzzles requiring creative solutions
- Charming pixel art style with vibrant colors

2. Story & Characters

2.1 Story Synopsis

In the heart of a bustling Indian mohalla lives Kabir, a 12-year-old boy known for his endless mischief. One fateful day, his pranks go too far, and he must face the consequences — being chased by 5 unique enemies across the neighborhood. From a mad dog to a vengeful ghost, Kabir must use his wits, stealth, and the help of friendly NPCs to survive each level and ultimately earn forgiveness.

2.2 Main Character: Kabir

KABIR - The Protagonist

Age: 12 years old

Personality: Mischievous, clever, kind-hearted, quick-thinking

Appearance: Wears a yellow t-shirt and blue shorts, messy hair, big eyes

Abilities: Running, hiding, interacting with objects, solving puzzles

Weakness: Gets scared easily, can be clumsy at times

2.3 Enemy Characters

Dog (Kutta)

Level 1: Dog Chase

Behavior: Aggressive chaser, fast speed, follows scent trails

AI Pattern: Patrols randomly, chases when player is spotted, can be distracted with bones

Weakness: Afraid of loud noises, can be  behind obstacles

Monkey (Bandar)

Level 2: Monkey Mayhem

Behavior: Mischievous, throws items, climbs walls

AI Pattern: Jumps between trees, throws bananas, blocks paths

Weakness: Can be lured with fruits, distracted by shiny objects

Bees (Madhumakkhi)

Level 3: Bee Swarm

Behavior: Swarm AI, aggressive when hive is disturbed

AI Pattern: Flies in formation, chases in groups, returns to hive

Weakness: Dispersed by smoke, hide in water

Bull (Saand)

Level 4: Bull Run

Behavior: Charges in straight lines, easily angered

AI Pattern: Charges when sees red, destroys obstacles, slow to turn

Weakness: Can be distracted with red cloth, slow to turn around

Ghost (Bhoot)

Level 5: Ghost Hunt

Behavior: Teleports, phases through walls, scare attacks

AI Pattern: Appears/disappears, follows player, blocks exits

Weakness: Afraid of light, can be trapped with lanterns

3. World Design

3.1 Setting: Indian Mohalla

The game is set in a traditional Indian mohalla (neighborhood) with narrow streets, colorful houses, small shops, temples, parks, and hidden alleys. The world is divided into 5 interconnected areas, each serving as a level with unique challenges.

3.2 World Map Overview

MOHALLA LAYOUT

- Area 1 - Main Street:** Starting area with shops and houses (Dog Level)
- Area 2 - Market Bazaar:** Busy market with stalls and crowds (Monkey Level)
- Area 3 - Garden Park:** Green space with trees and flowers (Bee Level)
- Area 4 - Construction Site:** Half-built buildings and machinery (Bull Level)
- Area 5 - Old Haveli:** Abandoned mansion on the hill (Ghost Level)

3.3 Environment Types

- **Residential:** Houses with courtyards, balconies, rooftops
- **Commercial:** Shops, stalls, tea stalls, vegetable vendors
- **Natural:** Parks, trees, gardens, ponds
- **Industrial:** Construction sites, warehouses, workshops
- **Historical:** Old haveli, temples, ancient walls

3.4 Interactive Objects

- Crates and barrels (hide behind)
- Market stalls (knock over for distraction)
- Water taps (use water on enemies)
- Lanterns (light up dark areas)
- Rope and pulleys (create traps)
- Signboards (knock down as obstacles)

4. Gameplay Mechanics

4.1 Core Loop

4.2 Movement & Controls

Arrow Keys / WASD	Move Kabir
Space / E	Interact with objects/NPCs
Shift	Sprint (limited stamina)
C	Crouch/Hide
I	Open Inventory
ESC	Pause Menu

4.3 Stealth System

- **Hiding Spots:** Behind crates, under tables, inside barrels
- **Visibility Meter:** Shows how visible Kabir is to enemies
- **Noise System:** Running makes noise, attracts enemies
- **Distractions:** Throw objects to lure enemies away

4.4 Stamina System

- Kabir has a stamina bar for sprinting
- Stamina regenerates when walking or hiding
- Running out of stamina makes Kabir slower temporarily

4.5 Health System

- Kabir starts with 3 lives
- Getting caught by enemy = lose 1 life
- Collect bandages to restore lives
- Game over when all lives lost (restart level)

5. Enemy AI & Chase System

5.1 AI States

ENEMY AI STATE MACHINE

- IDLE:** Standing still, looking around
- PATROL:** Following a set path
- ALERT:** Heard a noise, investigating
- CHASE:** Actively pursuing player
- CONFUSED:** Lost track of player, searching
- RETURN:** Going back to patrol route

5.2 Detection System

- **Sight Cone:** Enemies have a visible sight cone in front of them
- **Hearing Range:** Enemies can hear noises within a radius
- **Scent Trail:** Dog follows player's scent trail (fades over time)
- **Swarm Detection:** Bees communicate and alert each other

5.3 Chase Behavior

- Enemies speed up when chasing
- They can destroy obstacles in their path
- They have different turning speeds
- They can be temporarily slowed by obstacles

5.4 Enemy-Specific AI

DOG AI

Fast chase, follows scent, can jump small obstacles, barks to alert others

MONKEY AI

Climbs walls, throws items, unpredictable movement, steals items

BEE AI

Swarm formation, follows intruder, returns to hive, disperses with smoke

BULL AI

Charges in straight line, slow to turn, destroys everything, distracted by red

6. Level Design

6.1 Level 1: Dog Chase (Kutta Bhaga)

LEVEL 1 - MAIN STREET

Objective: Escape from the mad dog and reach the tea stall

Enemy: Dog (Kutta)

Time: 5 minutes

Mechanics Introduced: Basic movement, hiding, obstacles

- Narrow streets with multiple hiding spots
- Market stalls to knock over for distraction
- Residential houses with backyards
- Tea stall as the safe zone/goal

6.2 Level 2: Monkey Mayhem (Bandar Ki Masti)

LEVEL 2 - MARKET BAZAAR

Objective: Retrieve stolen items from the monkey

Enemy: Monkey (Bandar)

Time: 7 minutes

Mechanics Introduced: Vertical movement, climbing, item throwing

- Multi-level market with rooftops
- Fruit stalls for bait
- Climbable walls and ladders
- Monkey's nest as the goal

6.3 Level 3: Bee Swarm (Madhumakkhi Ka Hamla)

LEVEL 3 - GARDEN PARK

Objective: Find the hidden honey and escape the swarm

Enemy: Bee Swarm (Madhumakkhi)

Time: 6 minutes

Mechanics Introduced: Swarm avoidance, smoke mechanic, water hiding

- Dense garden with flower mazes
- Water bodies for hiding
- Smoke bombs as temporary protection
- Honeycomb as the goal

6.4 Level 4: Bull Run (Saand Ki Race)

LEVEL 4 - CONSTRUCTION SITE

Objective: Survive the charging bull and reach the safe house

Enemy: Bull (Saand)

Time: 5 minutes

Mechanics Introduced: Dodging, red cloth distraction, speed boost

- Open construction area with machinery
- Obstacles to dodge the bull
- Red cloth items for distraction
- Safe house as the goal

6.5 Level 5: Ghost Hunt (Bhoot Ka Khel)

LEVEL 5 - OLD HAVELI

Objective: Solve the ghost mystery and escape the haunted haveli

Enemy: Ghost (Bhoot)

Time: 8 minutes

Mechanics Introduced: Lantern light, riddle puzzles, secret doors

- Dark rooms requiring lantern light
- Riddle puzzles to unlock doors
- Hidden passages and secret rooms
- Haveli exit as the final goal

7. NPC & Dialogue System

7.1 NPC Types

- **Friendly NPCs:** Provide hints, items, and side quests
- **Neutral NPCs:** Ambient characters, can be interacted with
- **Shop NPCs:** Sell items and power-ups
- **Quest NPCs:** Give optional side missions

7.2 Dialogue System

- Text-based dialogue with character portraits
- Multiple choice responses in key situations
- Dialogue affects NPC reactions and available help
- Humor-driven dialogue with Indian cultural references

7.3 Sample Dialogues

Tea Stall Owner: "Arre Kabir! Phir se koi masti ki? Yeh lo chai piyo aur shant ho jao!"

Old Auntie: "Beta, us bhoot se bachke rehna. Woh haveli mein koi nahi jaata!"

Friend: "Yaar Kabir, tune bandar ka khana chura liya? Ab teri pitai pakki hai!"

8. Puzzle Mechanics

8.1 Puzzle Types

- **Environmental Puzzles:** Use objects in the environment to progress
- **Timing Puzzles:** Move at the right moment to avoid detection
- **Sequence Puzzles:** Solve in the correct order
- **Riddle Puzzles:** Answer riddles to unlock doors (Ghost Level)

8.2 Example Puzzles

LEVEL 2 PUZZLE

Puzzle: Monkey has stolen the key and hung it on a high branch

Solution: Find a long stick, knock down the key, avoid monkey's thrown items

LEVEL 5 PUZZLE

Puzzle: Ghost has locked the exit door with a riddle

Solution: Find 3 hidden notes around the haveli, combine them to get the answer

9. Inventory & Items

9.1 Collectible Items

Bandage	Restores 1 life
Bone	Distracts dog
Banana	Distracts monkey
Smoke Bomb	Disperses bees temporarily
Red Cloth	Distracts bull
Lantern	Reveals hidden paths, scares ghost
Key	Unlocks doors/gates
Stamina Drink	Restores stamina

9.2 Inventory System

- Maximum 6 items in inventory
- Items can be used from inventory or hotbar
- Some items are level-specific
- Items can be found or purchased from shops

10. UI/UX Design

10.1 HUD Elements

- **Health Bar:** Top-left corner, shows remaining lives
- **Stamina Bar:** Below health, shows sprint energy
- **Visibility Meter:** Shows how visible Kabir is
- **Mini Map:** Top-right corner, shows level layout
- **Item Hotbar:** Bottom of screen, shows quick-use items
- **Timer:** Shows remaining time (if applicable)

10.2 Menu Screens

- **Main Menu:** New Game, Continue, Settings, Credits
- **Pause Menu:** Resume, Settings, Restart, Quit
- **Level Complete:** Score, Time, Items Collected
- **Game Over:** Retry, Main Menu

10.3 Tutorial System

- Level 1: Basic movement and hiding tutorial
- Level 2: Vertical movement and item throwing
- Level 3: Smoke and water mechanics
- Level 4: Dodging and distraction mechanics
- Level 5: Light and riddle mechanics

11. Audio Design

11.1 Music

- **Main Menu:** Playful Indian instrumental
- **Exploration:** Light, cheerful background music
- **Chase:** Fast-paced, tense music
- **Puzzle:** Calm, thinking music
- **Level Complete:** Victory jingle

11.2 Sound Effects

- **Kabir:** Footsteps, jumping, hiding sounds
- **Dog:** Barking, growling, panting
- **Monkey:** Chattering, throwing sounds

- **Bees:** Buzzing, swarming
- **Bull:** Mooing, charging sounds
- **Ghost:** Spooky ambient, whooshing
- **Environment:** Market sounds, birds, water

12. Technical Specifications

12.1 Engine & Tools

Game Engine	Godot 4.7
Language	GDScript
Art Style	Pixel Art (16×16 tiles)
Resolution	480×320 (scaled to window)
Frame Rate	60 FPS

12.2 Scene Structure

- **Main Menu:** UI scene with buttons
- **Level Select:** World map with level nodes
- **Game Levels:** Tilemap-based levels
- **Player Scene:** Kabir with physics and animation
- **Enemy Scenes:** Individual enemy AI scenes
- **UI Scenes:** HUD, Dialogue Box, Inventory

12.3 Save System

- Auto-save at level completion
- Manual save from pause menu
- Stores: Level progress, inventory, score
- Uses JSON format in user directory

13. Art Style Guide

13.1 Color Palette

 PRIMARY RED	 ACCENT YELLOW
 NATURE GREEN	 SKY BLUE

13.2 Tile Sizes

- **Tile Size:** 16×16 pixels
- **Player Sprite:** 16×24 pixels
- **Enemy Sprites:** 16×16 to 32×32 pixels
- **Objects:** 16×16 to 32×32 pixels

13.3 Animation Guidelines

- **Player:** 4-frame walk cycle, 2-frame idle, 4-frame jump
- **Enemies:** 4-frame walk, 2-frame attack, 2-frame idle
- **Objects:** 2-frame interactive animations

14. Development Roadmap

Phase 1: Pre-Production	Concept finalization, GDD, Art style testing
Phase 2: Prototype	Core mechanics, Player movement, Basic AI
Phase 3: Vertical Slice	Level 1 complete, All mechanics working
Phase 4: Production	All 5 levels, Full enemy AI, Puzzles
Phase 5: Polish	Audio, UI polish, Bug fixes, Testing
Phase 6: Release	Launch on PC/Web, Marketing
